

Competition and EU law

Companies, associations and public institutions often face issues of competition law, State aid law or EU law. We provide legal advice that is forward-looking, quick and practice-oriented. Our team consists of 15 lawyers, who are based at our offices in Brussels, Düsseldorf and Mönchengladbach.

Our team works in seven languages. In the event of cross-border issues we can also draw on our network of renowned independent partners.

„Leading law firm for competition; ‘Very responsive and to the point’; ‘I like the uncomplicated, friendly and straightforward manner of Ivo DuMont, Axel Kallmayer and Gregor Schiffrers, with whom I have worked so far, their in-depth knowledge and their ability to get to the heart of complex issues’.“

Legal 500 Germany 2025

„Their trad. in recent years, the practice has broadened its traditional involvement in distribution antitrust law with regard to advising on digital platform models. [...] In addition, the practice has also recently been seen in some prominent cartel damages proceedings.“

Competition law and merger control

We represent companies and associations in competition law and merger control proceedings before German and EU competition authorities. We advise on the drafting of supply and distribution agreements as well as cooperation agreements between competitors in conformity with competition law.

Experience includes:

- Providing regular competition law advice to several industrial groups (including several DAX40 and MDAX groups) as well as to numerous medium-sized companies in almost all sectors
- Representing companies and associations in competition proceedings concerning heat stabilisers, confectionery, fire-fighting vehicles, spectacle lenses, building materials, the retail sector, the chemical wholesale sector, ready-mixed concrete, civil engineering, beer, mining, agricultural products, technical building services, musical instruments, fashion, etc.
- Numerous merger control notifications to the Federal Competition Authority (Bundeskartellamt) and the European Commission
- Advising operators of essential infrastructure on avoiding infringements of the prohibition on abusive practices, e.g. several international commercial airports

Competition law compliance

It is essential for companies and associations to avoid competition law infringements. To this end, we develop and implement compliance programmes to prevent breaches of competition law or, for example, breaches of the prohibition on corruption without incurring unnecessary costs or hindering employee initiative.

We also carry out audits in order to investigate any potential infringements – taking into account any relevant criminal law issues. In doing so, we can draw on the broad interdisciplinary expertise of our firm, that we have bundled in our > **Corporate Compliance Sector Group**.

Experience includes

- Development and implementation of compliance systems, training programmes and e-learning for more than 40 businesses and associations
- Conducting internal investigations for several German industrial companies both in order to avoid legal issues and for the clarification of concrete grounds for suspicion

Damages under competition law

Companies that breach competition law may owe damages to customers, suppliers or competitors. We support companies in asserting such claims or defending themselves against them. To this end we combine our competition law expertise with the many decades of experience that Kapellmann has in indemnity law and procedural law.

Experience includes:

- Representing public sector as well as private companies against the so-called "Truck Cartel"
- Other recent matters have included competition proceedings in the areas of fire hydrants, postal services, payment services, tracks, batteries, beer and sugar

State aid law

We support both beneficiaries and providers of State aid in the legally compliant structuring of such aid. Where requested, we also make any relevant notifications to the EU. We represent our clients in investigation proceedings before the EU Commission, always with the goal of avoiding demands for repayment and developing future arrangements that are in compliance with State aid law. In this, the proximity of our Brussels office to the EU institutions puts us at a distinct advantage.

„ The state aid practice is regularly in demand for infrastructure projects related to construction law, where the firm is one of the market leaders. Closely linked to the antitrust practice, it is also well networked in Brussels and with German authorities, including at state level. “

JUVE Handbook 2024/25

„ Leading law firm for State aid law; 'Specialised team in the field of EU state aid law based in Brussels, among other places, with correspondingly extensive experience in dealing with the EU institutions based there. Good understanding of municipal needs'; 'Very competent advice on EU state aid law from Christian Wagner and Valentine Lemonnier. Very personalised approach and fast response time; extensive experience through regular advice to public institutions and companies'. “

„ Awarded 'Top Business Law Firm 2023' for state aid law “

FOCUS-SPEZIAL Deutschlands Top-Anwälte 2023

Experience includes

- Regular provision of advice to several Federal States and municipalities on the legally compliant design of their public services e.g. through acts of entrustment
- Supporting private investors in the public funding of investment projects
- Advising numerous international commercial airports, including in pre- and main examination proceedings at the EU Commission

EU law, regulation and trade law

We advise companies, associations and public institutions on all aspects of EU law, which will become increasingly significant in the future. This also includes regulatory issues concerning the European internal market such as product safety, standardisation and financial services.

Our office lies at the heart of the EU-quarter in Brussels. All our lawyers there are very familiar with the Brussels rules and processes. As a German medium-sized law firm, we understand the interests of our clients well and represent them before the Brussels institutions – regularly also before the EU courts.

„ The well-established Brussels team of the firm, which is well established in Germany in construction law, is convincing with an experienced EU litigation practice. Good contacts with European authorities, good links to German practice. “

JUVE Handbook 2023/24 and 2024/25

„ Recommended law firm for European law “

Handelsblatt/Best Lawyers® "Deutschlands Beste Anwälte 2024"

„ One of the most recommended law firms by in-house counsels for European & international law “

kanzleimonitor.de 2021/2022

Experience includes

- Representing the Federal Republic of Germany before the European Court of Justice in its defence against the demerger of Deutsche Bahn AG pursued by the EU
- Ongoing advice to companies and associations on issues surrounding internal market law and financial regulation
- Representing clients in anti-dumping procedures
- Issuing several legal opinions on EU product safety law for federal authorities
- **> Representing clients in proceedings before the European Court of Justice and the Court of First Instance**

Grundstückstransaktionen der
öffentlichen Hand - beihilferechtliche
Herausforderungen beim An- und Verkauf, insbesondere bei Konzeptvergaben

> **valentine
Lemonnier, LL.M.**

#Online

Dieses Seminar vermittelt Ihnen kompakt und anwendungsorientiert die aktuellen Anforderungen des EU-Beihilferechts im Kontext öffentlicher Grundstücksgeschäfte. Nach einer Einführung in die Grundlagen des Market Economy Operator Tests (vormals: Private Investor Test), werden anhand konkreter Fallbeispiele unterschiedliche Erwerbskonstellationen analysiert und ihre beihilferechtlichen Implikationen diskutiert. Ein besonderer Fokus liegt dabei auf Grundstückstransaktionen im Rahmen von Konzeptvergaben, die in der Praxis zunehmend an Bedeutung gewinnen. Die Veranstaltung ermöglicht es den Teilnehmenden, potenzielle Beihilferisiken rechtzeitig zu erkennen, rechtssicher zu bewerten und geeignete Lösungsstrategien zu entwickeln. Ergänzt wird das Webinar durch einen kurzen Erfahrungsaustausch zu typischen Herausforderungen in der Praxis. Das Seminar ist eine Gemeinschaftsveranstaltung von Kommunales Bildungswerk e.V. und GIBT Colleg e.V. GIBT Colleg e.V. steht für die praxisnahe Vermittlung anspruchsvoller Rechtsmaterien in der Verwaltungspraxis.

EU-Beihilferecht im Bereich des
kommunalen Wohnungsbaus

> **Dr Christian Wagner**

#Online

Im Bereich des Wohnungsbau ist das europäische Beihilferecht für Kommunen sowohl bei der Beantragung und Vergabe von Fördermitteln als auch in Bezug auf Beteiligungsgesellschaften und Transaktionen zu beachten. Ein Überblick über die Anforderungen beim Wohnungsbau ist daher für die kommunale Praxis unerlässlich. Das Webinar vermittelt die beihilferechtliche Relevanz und stellt Gestaltungsmöglichkeiten und Anwendungsfälle dar, wobei auch auf die Entscheidungspraxis der Unionsgerichte und der Kommission und ihre praktische Handhabung erläutert wird.
